What to expect:

At Vayve Mobility Pvt Ltd, we are reshaping urban transportation with innovative electric vehicles. We are seeking a talented and motivated Software Developer to join our dynamic team. The ideal candidate will possess strong problem-solving skills, a passion for learning, and a desire to innovate. You will work on a variety of projects involving backend and frontend development, ensuring seamless integration and high-quality performance.

Job description

- Develop and maintain backend services using Python and Flask.
- Write efficient and reusable Bash scripts for automation and system management.
- Design, develop, and maintain databases, primarily using PostgreSQL and SQLite.
- Create responsive and interactive web applications.
- Troubleshoot and debug applications to optimize performance.
- Work closely with cross-functional teams to define, design, and ship new features.
- Participate in code reviews to maintain code quality and best practices.
- Stay updated with the latest industry trends and technologies to ensure our solutions are up-to-date.

What you bring along:

- **Proficient in Python** with a strong understanding of its standard library and best practices.
- **Expertise in Flask** for building web applications and APIs.
- **Experience with Bash scripting** for automation and system administration tasks.
- **Strong knowledge of databases** such as PostgreSQL or SQLite, including database design, querying, and optimization.
- **Frontend development skills** including HTML, CSS, JavaScript, and familiarity with modern frontend frameworks.
- **Problem-solving mindset** with the ability to approach complex problems methodically.
- **Willingness to learn** and adapt to new technologies and tools as needed.
- Excellent communication skills and the ability to work collaboratively in a team environment.
- Familiarity with version control systems, particularly Git.
- Experience with cloud services.
- Understanding of RESTful API design and implementation.
- Bachelor's degree in Computer Science, Engineering, or a related field, or equivalent practical experience.
